Disclaimer: Tune up plans/options are not equipment guarantees, warranties or an extension of the Manufacturer's warranties. Generator must be working in order to perform maintenance. For Generators NOT installed by Raynor Services, an initial inspection is required prior to enrollment in the plan. This ensures that the generator meets all Code Compliance and township requirements. If repairs are needed on the generator, Raynor Services will recommend a company to use for repairs. We are not responsible for their availability and only maintain the units. Prolonged usage may require an additional maintenance. Per manufacturer's recommendations, the battery should be replaced every three years. Both the additional maintenance and battery are at an additional cost according to the plan selected. **The Generator Maintenance Plan shall AUTOMATICALLY RENEW unless cancelled by the customer at least 10 days prior to the start of the renewal date. Raynor Services, requires a credit card to be on file stored in a safe manner for the monthly plan and will be charged on approx. the 15th of every month. By Signing this contract, you agree and understand all terms and conditions** Signature on Raynor Services invoice for selected plan above is also stating/certifying customers acknowledgment and agreement with all terms.

Total Amount to be Charged: \$ _____ Monthly Yearly

By signing this form, I agree to the terms & conditions on this form. The Generator Maintenance Care Plan(s) will apply ONLY to the Location listed below.
